MPRESS

These personalized notecards are letterpressed using hand-set metal type, leaving a deep impression with a bit of texture that is imperfect but beautiful all the same. At 4.25" x 5.5" you can quickly jot down a quick note to a friend and send a lasting impression.

Here's how it works: Pre-order the notecards by clicking the "add to cart button," filling out the order form and sending in your payment. Please remember to make your quantity, font, ink, and envelope selections and provide me with the custom name to be printed. I will confirm your order by e-mail and print your cards. The orders should be ready and mailed to you within 2-3 weeks.

All names or words will be hand-set in however way it is submitted in the order form. Please mind your upper case and lower case letters. The font "Engravers" is only available in upper case letters.

If you prefer a specific ink color, I can print them for you as long as you order a minimum of five sets. This would be perfect as wedding entourage presents, or why not go in on an order with a friend.

*Please note that these notecards are non-returnable because of the custom nature of the order.
